

ATTACHMENT B Amendments to the Specification

Please replace the paragraph at page 4, line 16 through page 5, line 13 with the following amended paragraph:

With reference to the enclosed drawings and in particular to Fig. 1, the numerals 1 and 2 refer to two lenses of a pair of swimming or diving goggles according to the present invention. Said lenses 1 and 2 are surrounded by a sealing frame 3 comprising a central separator 4 resting on a user's nose. Said lenses 1 and 2 are identical, perfectly symmetrical with respect to said separator 4 of frame 3 and comprise each a nasal portion ~~101 and 201~~ and 102 and a temporal ~~portion 102~~ portion 201 and 202, respectively. For each lens 1 and 2 said nasal portions 101 and 201 and said temporal portions 102 and 202 are ideally defined for convenience's sake by a vertical axis, i.e. axis 5 for lens 1 and axis 6 for lens 2. In the present embodiment there are two lenses 1 and 2, therefore physically separated through the separator 4 of frame 3, but obviously the present goggles could be provided with lenses carried out as one piece by connecting the nasal portions of the two lenses 1 and 2 by means of a central lens portion, placed where the current separator 4 is shown and provided below and above with sealing edges wholly similar to those of frame 3.
